

## Manual Pneumatic Pump AirMaxy - 500

- Offers rapid pressurization with minimal manual effort, facilitating calibration work. It also provides negative pressure or vacuum.
- Robust design, ergonomic handle made of high-strength nylon, body machined from anodized naval aluminum, and various parts machined from brass and stainless steel ensure a long lifespan.

## Dimensional:

## Included:

- Practical Carrying Case for transporting and storing accessories such as hoses, fittings, and a dedicated compartment for the PC-507 Calibrator with its respective charger.
- 02 x High-pressure hoses (06.08.0018-00)

**Construction:** Polyamide with external Kevlar mesh cover

**Length:** 900 mm

**Ends:** 1/2" UNF (Female) connections

**Maximum Pressure:** 6000 psi

- 02 x 1/4 NPT Male Adapters (06.08.0006-00)
- 01 x Plug with chain (04.04.0039-10).

## Technical Specifications

**Type:** Portable without pressure gauge

### Pressure ranges:

- Negative Pressure 28 "Hg nominal
- Positive Pressure 500 psi nominal / 35 bar

### With fine adjustment

**Dimensions (AxLxD):** 200 x 114 x 62 mm

**Weight:** 930g

**Connections:** 1/2" UNF (Macho)

**No tightening tools required.**
